

# Product Identification..

## Product Identification..

### Volkswagen Aisin Warner 6 Speed

(09D or TR60 SN) - RWD

(09G or TF60 SN) - FWD

*Dependent upon production date, the RWD version was produced both with & without pressure switches. Models produced through October of 2005 WILL have pressure switches. Models produced beginning in November of 2005, WILL NOT have pressure switches. See **RED ARROWS** for location of pressure switches.*

*Dependent upon production date, the FWD version was produced both with and without pressure switches. Models produced through June of 2004 WILL have pressure switches. Models produced beginning in July of 2004 WILL NOT have pressure switches. See **GREEN ARROWS** for location of pressure switches.*

### \*\* IMPORTANT NOTES FOR THE FWD VERSION \*\*

*There are (4) different styles of 09G Valve Bodies. Designs vary based upon location of the heat exchanger (cooler) & whether or not the valve body has pressure switches. The cooler is either mounted on top of the bell housing - OR - the case will have cooler line fittings for a remote cooler.*

**!!! DANGER - WARNING !!!** - Accurate Valve Body Identification is necessary!!!

*The (4) styles DO NOT interchange! Installing the wrong valve body will result in a lack of lubrication to the gear train causing catastrophic failure!*

*To order the correct FWD valve body for your application, you MUST determine the location of cooler AND whether or not you require pressure switches!*

Valve Body Type	Product Description	VBX Part #
09D or TR60SN - RWD	Up to 10-31-05 - WITH Pressure Switches	AW6VWR9
09D or TR60SN - RWD	11-1-05 & After - WITHOUT Pressure Switches	AW6VWR8
09G or TF60SN - FWD	Up to 6-30-04 CASE Cooler, WITH Switches	AW6VWF1
09G or TF60SN - FWD	Up to 6-30-04 REMOTE Cooler, WITH Switches	AW6VWF2
09G or TF60SN - FWD	7-04 & Up CASE Cooler, WITHOUT Switches	AW6VWF3
09G or TF60SN - FWD	7-04 & Up REMOTE Cooler, WITHOUT Switches	AW6VWF4
